

MHOR Australian Small Cap Fund

Product Disclosure Statement

mFund MOR01
ARSN 105 436 753
APIR ETL0030AU
Issue Date 26 March 2018

About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the MHOR Australian Small Cap Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the MHOR Asset Management Reference Guide ("Reference Guide"), which forms part of this PDS. You should consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia or New Zealand. New Zealand Investors must read the 'MHOR Australian Small Cap Fund' New Zealand Investor Information Sheet before investing in the Fund. All references to dollars or "\$" in the PDS are to Australian dollars.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the US Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial advice tailored to your personal circumstances and consider whether the information in this PDS is appropriate for you in light of those circumstances.

The Reference Guide

Throughout the PDS, there are references to additional information contained in the Reference Guide. You can obtain a copy by emailing the Investment Manager at info@mhor.com.au, visiting www.mhor.com.au or www.eqt.com.au/insto.

The information contained in the Reference Guide may change between the day you receive this PDS and the day you acquire the product. You must therefore ensure that you have read the Reference Guide current at the date of your application.

Updated information

Information in this PDS is subject to change. We will notify you of any changes that have a material adverse impact on you or other significant events that affect the information contained in this PDS. Any information that is not materially adverse is subject to change from time to time and may be obtained by emailing the Investment Manager at info@mhor.com.au, visiting www.mhor.com.au or www.eqt.com.au/insto. A paper copy of the updated information will be provided free of charge on request.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975 ("Equity Trustees"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed MHOR Asset Management Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

MHOR Asset Management Pty Ltd

MHOR is an investment management firm specialising in smaller companies. The founders of MHOR are Gary Rollo and James Spenceley. Together they combine the skills of an experienced smaller companies fund manager and the insights of an established entrepreneur and businessman with first hand ASX listed corporate leadership experience. MHOR is 100% owned by its employees. The team at MHOR are aligned with its investors, with a performance fee structure and significant founder capital invested in the Fund.

2. How the MHOR Australian Small Cap Fund works

The Fund is a registered managed investment scheme and governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become a unitholder in the Fund. The operator or custodian of the IDPS will be the unitholder entered in the Fund's register and will be the only person who is able to exercise the rights and receive benefits of a unitholder. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the following explanation applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$20,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Please note that cash and cheques cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.30%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually at the end of June and December. Distributions are calculated effective the last day of each accounting period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (i.e. the withdrawal request is in respect of 5% or more of the total units on issue), their withdrawal proceeds may be taken to include a component of distributable income.

Indirect investors should review their IDPS guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the MHOR Australian Small Cap Fund New Zealand investors Information Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Or by fax to +61 2 9251 3525

Or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is \$10,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

Equity Trustees will generally allow an investor to access their investment within 14 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, the Constitution allows Equity Trustees to reject withdrawal requests and also to make payment up to 180 days after acceptance of a request (which may be extended in certain circumstances).

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.30%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$15,000 as a result of processing your withdrawal request. Equity Trustees can deny or suspend a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an indirect investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

Further reading...

You should read the important information in the Reference Guide under "Investing in the MHOR Australian Small Cap Fund", "Managing your investment" and "Withdrawing your investment" about:

- application cut-off times;
- authorised signatories;
- reports;
- withdrawal cut-off times;
- withdrawal terms; and
- withdrawal restrictions,

before making an investment decision. Go to the Reference Guide which is available at www.mhor.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

3. Benefits of investing in the MHOR Australian Small Cap Fund

Significant features

The Fund provides access to MHOR's investment philosophy. MHOR believes in investing only where there is opportunity. MHOR targets the small cap area of the equity market as it believes small caps are under-researched and there are significant market inefficiencies that a quality investment process can exploit. MHOR's size, nimbleness and process allows it to find a good small cap business before it is of interest to the larger funds converging on the same space. MHOR aims to invest in a diverse portfolio of quality small caps that it believes have the potential to grow and create value faster than the broader listed market.

Significant benefits

Investing in the Fund offers a range of benefits, including:

- The opportunity of exposure to small cap companies, including unlisted securities, an area of the market that tends to be under-researched and less well understood.
- Accessing an actively managed fund, run by an experienced investment team.
- Access to investment team that includes real world business building and ASX listed CEO experience.
- A multi layered investment process to identify candidate investments, that are aligned with key industry trends and themes coupled with fundamental bottom up research providing an assessment of risk and value.
- Diversified portfolio, carefully constructed with select investments tilted toward positive drivers of share price performance.
- Professionally managed risk management structure and compliance framework.
- Alignment with investment manager, as the Fund has a performance fee based remuneration structure and investment manager capital is invested in the Fund.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Individual investment risk

Investments to which the Fund is exposed, like shares on a stock exchange, can (and do) fall in value for many reasons, such as changes in a company's internal operations or management, or in its business environment. The Investment Manager aims to reduce these risks with careful analysis and by talking to those people who run companies and are responsible for changes which may impact on the Fund's investments.

Market risk

Economic, technological, political or legal conditions, interest rates and even market sentiment, can (and do) change, and changes in the value of investment markets can affect the value of the investments in the Fund.

Small companies risk

Small companies generally have less diversified income streams, less stable funding sources and weaker bargaining positions with their counterparties when compared to larger companies. The securities of small companies may also be less liquid than those of larger companies.

Investment Manager risk

Investment managers can be wound up or liquidated, they can cease to manage the relevant fund and be replaced, their investment methodology can change, they can poorly manage operational risks and their funds can perform poorly. If any of these occurred, Equity Trustees would do all things reasonably practicable to recover the value of the Fund's investments and seek a new investment manager or program, with a similar investment profile, if thought appropriate. If the investment program changed significantly, you would be given at least 30 days' notice. Further, only a small number of investment professionals are responsible for managing the Fund and their personal circumstances can change. We aim to reduce this risk by having additional resources available through Equity Trustees

Fund risk

Risks particular to the Fund include that it could terminate (for example, at a date we decide), the fees and expenses could change (although we would always give you at least 30 days' notice if fees were to increase), we could be replaced as responsible entity and our management and staff could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Derivative risk

The Fund may make use of exchange-traded derivatives, including, but not limited to, futures, options and contracts for differences, as part of its investment policy. Derivatives may be used to manage equity and foreign exchange risk. Derivatives are highly specialised instruments that require investment techniques and risk analysis different from those associated with equities and debt securities. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into and the ability to assess the risk that a derivative transaction adds to a portfolio. As such there can be no guarantee or assurance that the use of derivatives will meet or assist in meeting the investment objectives of the Fund.

Derivatives can be highly volatile and expose investors to a high risk of loss. The low initial margin deposits normally required to establish a position in such instruments permit a high degree of leverage. As a result, depending on the type of instrument, a relatively small movement in the price of a contract may result in a profit or a loss which is high in proportion to the amount of funds actually placed as initial margin and may result in unquantifiable further loss exceeding any margin deposited. In addition, daily limits on price fluctuations and speculative position limits on exchanges may prevent prompt liquidation of positions resulting in potentially greater losses.

Concentration risk

Because the Fund invests in a limited number of issuers, the Fund's performance could be more volatile than the performance of more diversified funds.

Liquidity risk

It may be difficult to value, and it may not be possible to sell, certain investments, types of investments, and/or investments in certain segments of the market, and the Trust may have to sell certain of these investments at a price or time that is not advantageous in order to meet redemptions or other cash needs.

Interest rate risk

This is the risk that the capital value or income of a security may be adversely affected when interest rates rise or fall.

Counterparty risk

Counterparty risk is the risk that the counterparty to a transaction or contract (such as a broker or other agent of Equity Trustees) may default on their obligations and that the Fund may, as a result, experience an adverse investment outcome or liability

Legal and regulatory risk

Legal risk is the risk of losses to the Fund occurring as a result of legal issues, principally loss due to the non-enforcement of a contract. This non-enforcement may arise from insufficient documentation, insufficient capacity or authority of a counterparty, uncertainty in relation to the interpretation of the law or unenforceability in bankruptcy or insolvency.

There is also risk that laws, including taxation laws, might change, adversely affecting the ability of the Fund to achieve its objective and/or adversely affecting the Fund's performance.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to outperform its benchmark which is the S&P/ASX Small Ordinaries Accumulation Index over a rolling 5 year period, after taking into account fees and expenses.

Benchmark

S&P ASX Small Ordinaries Index (Acc).

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 3 to 5 years.

Risk level of the Fund

High.

Investor suitability

The Fund is generally suited for persons seeking:

- to gain access to a diversified portfolio of high quality listed and unlisted small companies.
- long term capital growth and income.
- to invest in a part of the market where inefficiencies are common and where a good investment process can exploit these by seeking to discover high quality growth companies before they become well known.

Investment style and approach

MHOR looks for investments that exhibit a specific set of characteristics:

- Opportunity – to take advantage of growth and positive alignment with industry themes and trends.
- Quality business – competitively advantaged product or service offering.
- Financial flexibility – appropriately resourced to capture its opportunity.

- Management – with the vision and capability to bring it all together.
- Fundamentally undervalued.

Asset allocation

The portfolio's asset allocation will generally be within the following ranges:

- Securities - 50-100%
- Cash - 0-50%

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Labour, environmental, social and ethical considerations Investment decisions are based on industry and company fundamentals.

However MHOR takes into account labour standards, environmental, social and ethical considerations when making these decisions to the extent that these factors impact our assessment of risk or return.

Fund performance

Up to date information on the performance of the Fund can be obtained from www.mhor.com.au/performance. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs are deducted from the assets of the Fund and reduce the investment return to investors. For information on tax please see Section 7 of this PDS.

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 1.50% p.a. of the NAV of the Fund ²
	Performance fees: 15.38% of the amount by which the Fund's performance exceeds the benchmark (S&P/ASX Small Ordinaries Accumulation Index). Any underperformance from a prior period must be recouped before a fee can be taken (we call this the high-watermark) ³

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

³ This represents the performance fees which are payable as an expense of the Fund to the Investment Manager. See "Performance fees" below for more information.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that a unitholder incurs by investing in the Fund rather than by investing directly in the assets.

The management fees of 1.50% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future), including litigation costs, the costs of convening unitholder meetings.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

Performance fees

Performance fees are payable to the Investment Manager where the investment performance of the Fund exceeds the performance of the benchmark (S&P/ASX Small Ordinaries Accumulation Index). The performance fees are 15.38% of this excess, calculated daily and paid semi-annually in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period.

No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

Based on the current calculation methodology for the performance fee, the Responsible Entity has estimated that the typical ongoing performance fee payable per annum may be \$550 assuming an average account balance of \$50,000 during the year. Prior periods have been taken into account in calculating this estimate. However, this is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be, but it will be reflected in the management costs for the Fund for the relevant year. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.30% upon entry and 0.30% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$150 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and redemptions arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the net asset value of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2017, the total transaction costs for the Fund was estimated to be 1.51% of the Fund's net asset value, of which 23.5% of transaction costs was recouped via the Buy/Sell Spread, resulting in a net transactional cost of the Fund of 1.15% p.a. The total transaction costs for the year ended 30 June 2017 are not indicative of future years as there were large applications into the Fund, the estimated total transaction costs for future periods are 0.82% of the Fund's net asset value.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

Example – MHOR Australian Small Cap Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0
Plus Management costs comprising:	2.60% p.a.	And , for every \$50,000 you have in the Fund you will be charged \$1,300 each year comprising:
Management fees:	1.50% p.a.	\$750
Performance fees:	1.10% p.a.	\$550
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$1,300* What it costs you will depend on the fees you negotiate.

*This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only. Indirect costs are not a fee earned by or paid to the Responsible Entity or the Investment Manager.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

The performance fees stated in this table shows the actual performance fees for the financial year ended 30 June 2017 as a percentage of the Fund's average NAV. The performance of the Fund, and the performance fees, may be higher or lower or not payable in the future. As a result, the management costs may differ from the figure shown in the table. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future. See also above (next to the heading "Performance fees") our estimated typical ongoing performance fees fee payable per annum. The actual indirect costs and performance fees for the current financial year and for future financial years may differ. For more information on the performance history of the Fund, visit Equity Trustees' website at www.eqt.com.au/insto. Past performance is not a reliable indicator of future performance.

Further reading...

You should read the important information in the Reference Guide under "Additional information on fees and costs" about the fees and costs associated with investing in the Fund before making an investment decision. Go to the Reference Guide which is available at www.mhor.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT"), are attributed to them.

8. How to apply

Investors can complete the application process online (please go to www.mhor.com.au for further instructions) or via the hard copy Application Form accompanying this PDS. If you choose to apply for units in the Fund online you will be required to register, confirm your acceptance of the terms and conditions, and download a copy of this PDS prior to proceeding. The online application includes the option of completing your AML and KYC requirements online, and submitting the application directly using an electronic signature. For details please visit our website www.mhor.com.au.

You can also apply via the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. If applying via mFund you will need to provide the application money directly to your licensed broker.

Alternatively (hard copy) applications can be made by completing the Application Form accompanying this PDS, and direct credit funds by electronic transfer (details are in the Application Form), and send your Application Form to:

Mainstream Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Additional applications may be faxed to +61 2 92513525.

Please note that cash and cheques cannot be accepted.

Who can invest?

Eligible persons (as described in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

Cooling-off period

If you are a Retail Client (as defined in the Corporation Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment. The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unitholder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with investors.

Enquiries and complaints

If you have any questions regarding the management of the Fund, you can contact the Investment Manager on 1300 133 451. If you are not completely satisfied with any aspect of our services regarding the management of the Fund, please contact Equity Trustees. Equity Trustees seeks to resolve potential and actual complaints over the management of the Fund to the satisfaction of investors. If you wish to lodge a formal complaint please write to:

Compliance Team
Equity Trustees Limited
GPO Box 2307
Melbourne VIC 3001
Email: complianceteam@eqt.com.au

Equity Trustees will respond within 14 days of receiving the complaint and will seek to resolve your complaint as soon as practicable but not longer than 45 days after receiving the complaint. If we are unable to resolve your complaint, you may be able to seek assistance from the Financial Ombudsman Service ("FOS"). To find out whether you are eligible (and if so, to make a complaint) contact FOS on 1800 367 287 (Australia) or +61 3 9613 7366, info@fos.org.au or GPO Box 3, Melbourne VIC 3001.

Please include the Equity Trustees FOS membership number with your enquiry. It is 10395.

FOS can assist you if Equity Trustees cannot. FOS may not consider a dispute where the value of a person's claim exceeds \$500,000. FOS is only able to make a determination of up to \$309,000 per managed investment claim (excluding compensation for costs and interest payments). These monetary limits and the FOS terms of reference do change from time to time. Current details can be obtained from the FOS website (www.fos.org.au).

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the Investment Manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager and the Custodian have not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. Neither the Investment Manager, the Custodian nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which it has provided its written consent to Equity Trustees for inclusion in this PDS.

mFund Settlement Service

You must use a mFund accredited and licensed broker to facilitate your transactions on mFund. Your chosen broker may charge you additional fees which are not outlined in the Fees and Costs section of this PDS.

Further reading

You should read the important information in the Reference Guide "Other important information" section about:

- your privacy;
- the Constitution for the Fund;
- the Anti-Money Laundering and Counter-Terrorism Financing laws ("AML/CTF laws");
- Indirect Investors;
- Information on underlying investments;
- Foreign Account Tax Compliance Act ("FATCA"); and
- Common Reporting Standards ("CRS"),

before making a decision to invest. Go to the Reference Guide which is available at www.mhor.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.
